Description of Work

Waterbody	High Crest Lake				
Secchi (feet)	8	Dissolved Oxygen (ppm)	10	Posted Water Use Rescriptions	
Temp(F)	64	PH	6.5	Hardness	90
				<input checked="" type="checkbox"/> Yes <input type="checkbox"/> No	
Type of Service	<input type="checkbox"/> Survey <input checked="" type="checkbox"/> Treatment <input type="checkbox"/> Fountain Service <input checked="" type="checkbox"/> WQ Sample Service <input type="checkbox"/> Other Service				
Species Treated	Filamentous, Curly Leaf Pondweed				

Comments

Surveyed the lake, observed targeted plants decomposing and beginning to float to the surface causing algae to grow on top of decomposed plants. Sonar treatment is working well, targeted plants are decomposing and are being controlled.

Applied additional Sonar to the lake to increase the concentration.

Applied algaecide in boat launch cove and by 285 High Crest Dr. cove to control the growth of Filamentous Algae.

Took water samples in boat launch cove and beach area.

L.M.S will return for further management.

Aquatic Algae Present

Aquatic Plants Present

Filamentous
 Curly Leaf Pondweed
